

Funding Opportunities Program

Meg Sparling

Funding Opportunities Coordinator

Limited Submissions Coordinator

What is the Funding Opportunities Program?

- The Office of Research Funding Opportunities Program assists researchers in identifying funding opportunities
- We recommend searching for research funding opportunities using three (3) primary tools:
 - Searching the **Pivot** database, and setting up “Saved Searches”
 - Checking our home-grown **Research Funding System**
 - Subscribing to our “**Weekly Research Funding Update**” list-servs

Pivot

- Pivot is a large database of extramural funding opportunities that UC Davis subscribes to. All UC Davis faculty, staff, and students can access it—though you will first need to set up a log-in
- You can set up “Saved Searches” based on criteria you choose in the “Advanced Search Tool,” and Pivot will then send you an email each week with new results for those searches—automating your search!
- In the future, you will also be able to find internal funding opportunities in Pivot, and on a forthcoming “InfoReady Review” website
- <https://pivot.cos.com>

Research Funding System (RFS)

- RFS is a home-grown funding opportunity database where Limited Submission competitions are announced and coordinated, but it also promotes other funding opportunities of interest to the campus that are not internally coordinated
- <https://researchfunding.ucdavis.edu>

Weekly Research Funding Updates

- We produce four (4) weekly emails for the UC Davis community that promote new research funding opportunities, in addition to news, announcements, and events related to research and research funding
 - General
 - Early Career
 - Social Sciences
 - Humanities
- Subscribe through our [website](#), or contact me to be added to the list(s)

What is a Limited Submission?

- When a Request for Proposals (RFP) restricts the number of proposals, applications, or Letters of Intent (LOIs) that an institution can submit, it is called a “Limited Submission”
- For these opportunities, the Limited Submission Program coordinates a campus review and selection process
- The RFP typically includes a statement like: “Only one application per institution is allowed,” or “Organizations may only submit up to 3 proposals per deadline,” etc.

Limited Submission Example

PAR-17-340: Collaborativ x Research Funding - Dem x
s://grants.nih.gov/grants/guide/pa-files/PAR-17-340.html

Department of Health and Human Services Part 1. Overview Information

Participating Organization(s)	National Institutes of Health (NIH)
Components of Participating Organizations	National Institute of General Medical Sciences (NIGMS)
Funding Opportunity Title	Collaborative Program Grant for Multidisciplinary Teams (RM1) (Clinical Trial Not Allowed)
Activity Code	RM1 Research Project with Complex Structure
Announcement Type	New
Related Notices	NOT-GM-17-016
Funding Opportunity Announcement (FOA) Number	PAR-17-340
Companion Funding Opportunity	None
Number of Applications	Only one application per institution per review cycle is allowed, as defined in Section III. 3. Additional Information on Eligibility .

Encountering a Limited Submission Opportunity

- Consult the Research Funding System to find out if there is currently an open competition for this program
 - If there appears to be a competition forthcoming or underway, notify the PI
 - If you do not see the program listed among the open competitions, contact Limited Submissions (limsubmissions@ucdavis.edu)

Welcome

Research Funding is an online system where UC Davis researchers can search for upcoming extramural funding opportunities, and apply to those that require internal coordination. Of the three types of opportunities posted here, Limited Submissions and Coordinated Submissions require internal coordination, while Funding Opportunities of Special Interest do not.
